### Personal Statement

I am currently a third-year student at Birmingham city university studying Computer Science with a predicted grade of first-class honours. I have applied learned skills and coursework material to develop a hospital management system utilizing skeleton code in Python and implemented a Java based library management system. I am seeking the opportunity to further develop the skills that I have learned and to learn new skills within industry.

### Technical Skills

- **Python** – Developed a hospital management system using skeleton code.
- **Java**- Applied Object-oriented principles to construct a library management system for coursework.
- **PHP, HTML and CSS**- Created a social media application with 2 other people using CRUD operations.
- **MySQL**- Using the phpMyAdmin tool for a MYSQL database alongside PHP, HTML and CSS.
- **Linux Ubuntu**- At Present, I am expanding my knowledge in Linux fundamentals.
- **Data Structures and Algorithms**- Using Python in order to tackle computational challenges.

### Relevant IT Projects

Innovation Project – Research/Marketing Lead

- Responsible for spearheading the creation of a marketing plan while actively contributing to the development of the smart greenhouse project.

### Education

September 2022-Present

**Birmingham City University – BSc (hons) Computer Science**

Predicted grade – First Class Honours

- Innovation Project (90%) – Developed a smart greenhouse with 4 other members and presented at innovation fest and gained a first-place award.

- Data Structures and Algorithms (77%) – Contributed to a group project with 4 other people working on a case study picked at random in a mock assessment centre situation.

September 2020 – July 2022

**Northampton International Academy – A Levels**

- Computer Science
- Psychology
- Sociology

September 2015 – March 2020

**Northampton Academy - GCSES**

7 GCSES at 6-4 including English (6), Maths (5) and Computer Science (6)

**Experience**

**Sales Assistant – Primark from June 2023-Present**

- Exceptional communication and customer service skills by processing orders both in-store and online.
- Ensuring optimal safety standards in the workplace at all times.
- Working closely with customers and ensuring accurate payments and satisfaction.

**Papa Johns from November 2022 – July 2023**

- Maintaining workspace cleanliness consistently.
- Enhanced my ability to work under pressure and handling multiple tasks at the same time.

**Uber Eats Courier from July 2022 – September 2022**

- Responsible for receiving and organizing food orders for transport to multiple locations.
- Able to adapt, manage and reroute deliveries based upon customer preferences and priority.

**Springpod Virtual Work Experience October 2021 – November 2021**

- Gained a further understanding about the possible career paths to take and took part in group discussions and quizzes.
- Maximized my knowledge of multiple industries.
